GoodRx

GoodRx is a prescription drug card that will allow you to go directly to the pharmacist as a "CASH PAY" patient.

Can I use the discount card with my health insurance?
No - This discount card price may be lower than your health insurance co-pay, it cannot be used to lower your co-pay. Ask your pharmacist to help you find the best possible price.

When would it be appropriate to use this card?
1. When you have a very high co-pay or deductible.
2. When your Insurance won't approve or pay for the prescribed medication.
3. If you do not have insurance.

You may have significant savings going this route.

Prices are dependent on what area code you put in and **you must search using your zip code** to find the pharmacies in your area that participate.

It is important to note that these **prices are subject to change over time** – so be sure you fill the prescription as soon as you can to obtain the price quoted. Occasionally the pharmacist will claim that the prices are "out of date".

You can download the **GoodRx app** on your phone or tablet.
You can also go to their website: www.goodrx.com

You can also request a GoodRx card from us to take with you to the pharmacy. You will still need to search the website or app to find the best price.
